welcome

My name is Naudia Campbell, I've been a licensed New York State esthetician for over 15 years and I am Naudia Lorraine Skincare's founder and formulator. Inspired by my Jamaican heritage and the rich biodiversity of the Amazon rainforest, I created NLS with the belief that nature holds the key to radiant, healthy skin.

At Naudia Lorraine Skincare, sustainability and eco-consciousness are at the heart of everything I do. Each formula is produced in small batches in my private lab on Long Island, crafted with plant-powered, fair-trade, and wild-harvested ingredients. These workshops are a way for me to share that passion, empowering you to create thoughtful, nourishing skincare while embracing the beauty of simple, effective ingredients.

why nls?

Naudia Lorraine Skincare workshops are hands-on, creative experiences designed for groups of all kinds—from private parties or girls' night out to bridal celebrations and corporate wellness events. Each participant will craft eco-friendly, plant-powered skincare products to take home.

Workshops are fully customizable. Hosts select 1–2 projects from the menu of options, and all supplies are provided. No prior experience is needed—just bring your creativity!
